Pediatric Cardiac Monitoring Supplies

Med-Dyne Pride

Med-Dyne prides itself on being an industry leader in Interconnect Devices, Cardiac Monitoring and Air Filtration supplies. Med-Dyne is proud of its long history in the medical industry. Our quality of production and customer service has helped us maintain an excellent reputation with our customers allowing opportunity for future growth.

The Med-Dyne Value

Med-Dyne is continually growing its product line to meet the healthcare market's growing needs. With over 20 years of experience, Med-Dyne has the ability to design, manufacture, and distribute all your Cardiac Monitoring and Air Filtration Devices. Med-Dyne always keeps your inventory in stock ready to ship same day as ordered to reduce your on hand inventory costs.

Customer Service

Let Med-Dyne's trained team of Professional Customer Service Representatives assist you with any product inquiries.

Available at 1-877-Med-Dyne.

Pre-Wired Electrodes

- **Patented Hydrogel Electrodes** are available in different shapes and sizes to meet your needs.
- **Color-Coded Leadwires** made with Industry Standard Safety Sockets to ensure compatibility.
- **Pre-Wired Electrodes** make inventory levels easier to manage with one part for all of your ECG needs.

Convenient to Use

- 3 or 5 Lead sets in any length, shape, and size of choice.
- Electrodes are repositionable without need for added moisture.
- Each card contains the electrodes attached to the leadwires, all you need for the patient.

Color-Coded for Easy Connection

- Color-coded leadwires make cable connection easy.
- Strain relief device allows for more connection flexibility.

Comfortable to Wear

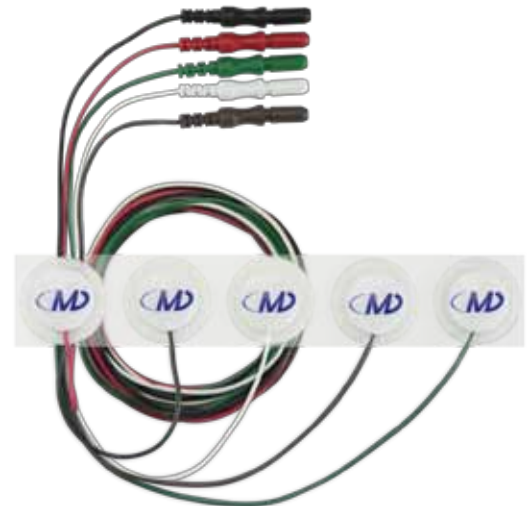

- Breathable cloth for long term application.
- All Med-Dyne Products are 100% Latex Free.
- Flexible wires feel comfortable against patient's skin.
- More chest area is exposed to allow clinician to conduct other tests without disturbing the ECG monitoring.
- Our patented hydrogel layers provide firm adhesion while minimizing irritation to delicate newborn skin.

Pre-Wired Electrodes

Part #	Description	Quantity
G63-300	24" Pre-Wired (BK,GR,WH) ECG Electrode Monitoring Neonate Cloth Conductive Hydrogel, 7/8" x 1.25" Rectangle	300 Electrodes / 100 Cards
G63I-300	24" Pre-Wired (BK,GR,WH) ECG Electrode Monitoring Neonate Cloth Conductive Hydrogel, 7/8" Square	300 Electrodes / 100 Cards
G63R-300	24" Pre-Wired (BK,GR,WH) ECG Electrode Monitoring Neonate Cloth Conductive Hydrogel, 1.25" Diameter	300 Electrodes / 100 Cards
G63S40-300	40" Pre-Wired (BK,GR,WH) ECG Electrode Monitoring Neonate Cloth Conductive Hydrogel, 1" Diameter	300 Electrodes / 100 Cards
G324S-300	24" Pre-Wired (BK,GR,WH) ECG Electrode Monitoring Neonate Cloth Conductive Hydrogel, 1" Diameter	300 Electrodes / 100 Cards
G324R-300	24" Pre-Wired (BK,GR,WH) ECG Electrode Monitoring Neonate Cloth Conductive Hydrogel, 1.25" Oval Diameter	300 Electrodes / 100 Cards
G324L-300	24" Pre-Wired (BK,GR,WH) ECG Electrode Monitoring Neonate Cloth Conductive Hydrogel, 1.50" Diameter	300 Electrodes / 100 Cards

Part #	Description	Quantity
G524S-500	24" Pre-Wired (BK,BR,GR,RD,WH) ECG Electrode Monitoring Neonate Cloth Conductive Hydrogel, 1" Diameter	500 Electrodes / 100 Cards

Hydrogel Electrodes

Med-Dyne's Patented Hydrogel DEL Series is not affected by changes in humidity and temperature; in addition, these electrodes will not dry out under bilirubin lights. Trial studies have shown our Patented Hydrogel Layers provide firm adhesion while minimizing irritation to delicate newborn skin.

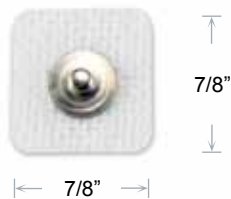

Features

- Silver/Silver Chloride Conductive Gel.
- Breathable cloth for long term application.
- All Med-Dyne Products are 100% Latex Free.
- Electrodes are repositionable without need for added moisture.
- Electrodes may be trimmed with scissors to fit small babies without loss of adhesive.

Cables

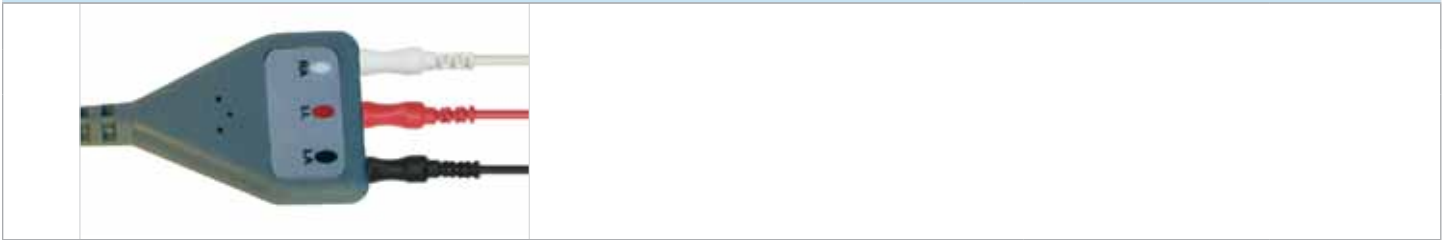

Description

Med-Dyne offers an extensive line of DIN style cables in 3, 5, and 7 lead configurations with an over molded strain relief allowing for more flexibility thereby increasing durability. The yoke or patient end is marked with color coding and letter designations.

Please call today for more information on our customized cables.

Pediatric Apnea Monitor Kits

General Information

Med-Dyne Home Care Pediatric Electrode Belt Kits are designed with the parent and baby in mind. Our kits include a thin, soft, nylon-covered foam belt, rubber electrodes, and lead wires to monitor a baby's sleep in comfort. Kits are available in Infant and Preemie Sizes.

All Clinical Pediatric electrodes have color-coded 24" lead wires with industry standard safety socket connector and include directions.

Infant Belt Kit

Preemie Belt Kit

User Friendly, Home Care Electrode Kit, SRK-Series

- Small size.
- Reusable electrodes.
- 24" Tinned copper leadwires.
- All Med-Dyne Products are 100% Latex Free.
- Breathable, soft, nylon cloth belt for comfort.

Pre-Wired Electrodes

- **24" Color-Coded Leadwires** made with Industry Standard Safety Sockets to ensure compatibility.
- **Patented Hydrogel Layers** provide firm adhesion while minimizing irritation to delicate newborn skin.
- **Pre-Wired Electrodes** simplify inventory assessments with one part for all of your Apnea Monitor needs.

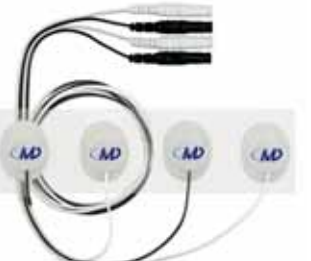

Features

- Breathable cloth for long term application.
- All Med-Dyne Products are 100% Latex Free.
- Flexible wires feel comfortable against the patient's skin.
- Electrodes are repositionable without need for added moisture.
- Each card contains the electrodes attached to the leadwires, all you need for the patient.

Med-Dyne Value

Why use Pediatric Disposable Pre-Wired Electrodes?

- Significantly reduce your patient's risk of Healthcare-Associated Infections by using new electrodes and lead wires on each patient. 3 or 5 Lead sets in any length, shape, and size of choice.
- Americans get an estimated 1.7 million Healthcare-Associated Infections in the U.S. annually, according to the Centers for Disease Control and Prevention (CDC). These infections:
 - Cause approximately 99,000 deaths each year.
 - Account for between \$35.7 to \$45 billion in additional healthcare costs annually.

Why choose Med-Dyne Pediatric Disposable Pre-Wired Electrodes?

- Med-Dyne's Pediatric Disposable Pre-Wired Electrodes are designed with a baby in mind.
 - Electrodes may be repositioned without using moisture.
 - Our patented hydrogel layers provide firm adhesion while minimizing irritation to delicate newborn skin.
 - Med-Dyne has the capability to custom design Pre-Wired Electrodes to fit your needs from color, length, to size.
- Med-Dyne always keeps your inventory in stock and ready to ship to reduce your on hand inventory costs.
